

ARTIFICIAL PLANT CARE GUIDE

Caring for your artificial plants

When you first get your plant you'll need to give it a quick zhushing - they're folded down to minimise packaging and damage during transit.

Gently bend the stems and tweak the leaves until you like how the plants look.

Your faux plant

- This artificial plant is suitable for indoor use only.
- Position it out of direct sunlight to avoid colour fading.
- Protect any polished or painted surfaces it's standing on.
- Avoid immersing it in water.
- Use a dry cloth to wipe the plant and avoid using water or cleaning products including detergents.
- Keep out of the reach of children - small parts can cause a choking hazard if accidentally swallowed.
